drawing on recent debates in critical international political economy this book mobilizes the idea that the economy does not exist separately from society and politics to develop a detailed intellectual history of how the economy came to be seen as an independent domain in contrast to typical approaches to writing the history of economic thought which assume the reality of the economy the author describes the forms of intellectual argument that made it possible to conceive of the national and international economies as objects of intellectual inquiry at

the centre of this process was the analytical separation of power and wealth walter thus offers a broad historical perspective on the emergence of current ipe theory while linking the field with contextualist intellectual history this important and innovative volume will be of strong interest to students and scholars of international political economy international relations economics history and political theory

this book fills a gap in literature by generating a combined history of physical education pe school sport ss and health education he in new south wales nsw public schools from 1880 to 2024 it includes broad discussions on how political issues such as the world wars influenced i the pe curriculum which was used as a medium to prepare a fit army ii the school sport system which acted as an expression of national strength via showcasing sporting prowess on the international stages of the olympic games and iii the health education curriculum which addressed infectious diseases resulting from poor hygiene associated with poverty the book also adopts a socio cultural perspective to the constructs of pe ss and he curricula and highlights significant local national and international historical events and issues as factors driving curriculum developments and paradigm shifts in these subjects in the nsw public education and beyond it brings new and engendering socio historical findings to the discipline fields of pe ss and he combined with an innovative methodology in critical historiographical studies

the english language accounting history of double entry accounting before 1800 has reached an impasse the doors to its reawakening are fiercely guarded by combination locks powered by confirmation bias and adherence to a priori wisdom requiring vast amounts of supportive scholarship to make public the smallest contribution to what is known and understood of the first 600 years of its use to open those doors a foundation is needed upon which scholarship can begin anew a framework of reference that can be used to justify the validity and relevance of scholarship and discovery in this field that is the purpose and role of this book it does not focus on the technical it focuses on the environment and context of use of the method and its function it considers why and consequences it asks who when where and what along with how it adopts the perspective that the reason for the bookkeeping drove how it was adopted not the availability of parchment or paper nor the emergence of the concept of the technology the book in which it was recorded rather its use was driven by a need of the person who wrote the record or by the needs of those who wished a record to be kept a critical traditional historical method is adopted explanations are sought and identified utilising knowledge of the environment and context of practice that to this point rarely if ever feature in the antiquarian historiography this book ideally seeks to replace the approach adopted is multi disciplinary and the sources used are multi disciplinary and multi lingual this book is essential reading for anyone with an interest in accounting s past
